Subject: RE: acrylonitrile

If it involves Dimock, it would be the NERO.

Ron

Ron,

The citizen checked and has copper plumbing. He'll be calling SWRO today.

Maybe the complainant has Acrylonitrile Butadiene Styrene (ABS) pipe in their home for the water supply line.

Nope. They should contact the local DEP office with jurisdiction in their area.

Ron, have you heard any indications that the WQ criterion for acrylonitrile is being violated? We had a call from a citizen (a PA American Water customer) who found high levels at his tap and he noted if this level is present in the stream then it's over the WQC.

You are welcome. This order was because of a spill. I'm trying to also get you a copy of the other order to Cabot that was issued over the gas migration issue. Ron

Was the Pa DEP order of September 2009 to Cabot issued out of your O&G office? If so can you scan and forward a copy to Angela McFadden EPA at her e-mail address below?
Thanks Ron

Ron,

Can we get a copy of PADEP's stop work order issued to Cabot?

I have a feeling there will be ongoing requests for enforcement documents. Soon we'll have a secured web site where they can be collected and maybe it will be easier to just give folks access to post them there.

Subj Fw: DIMOCK complaint
ect:

FYI. Here is a complaint that has been filed against Cabot Oil and Gas Corp and its drilling company. It alleges a number of claims related to hydrofracing. Paragraph 35k references a September 2009 PADEP order requiring Cabot to cease fracturing/well stimulation activities. Can we get a copy of that order?
